

Policy: Replacement of Members of State Teams for the ANC

Replacement applies when a player (or pair) withdraws from the team after completion of the Open, Women's or Seniors' selection trials due to circumstances such as illness, unavoidable personal problems, refusal of ratification by the BAWA Management Committee or any other reason.

Where team membership was determined via pairs selection trials:

In such cases, the affected pair will be replaced by the highest ranked available pair from the final (or only) stage of the selection trials.

The selection of a replacement pair remains subject to ratification by the BAWA Management Committee.

If the above process fails to identify an available replacement pair, or if the withdrawal is notified two weeks or less before commencement of the ANC, the BAWA Management Committee may take whatever action it considers necessary to fill the vacancy created.
